About Us

We Med International Ltd, a proud subsidiary of AJR Pyramin International, is a prominent supplier of medical consumables in Africa, dedicated to enhancing the continent's healthcare ecosystem. Backed by the strong global network and competence of our parent company, we integrate global standards with regional expertise to offer top-notch medical products at reasonable rates.

Our excellent ties with hospitals, clinics, and healthcare professionals allow us to provide quick and dependable access to critical medical supplies, resulting in better patient care and operational efficiency. We are committed to ongoing innovation, sustainable practices, and operational efficiency, intending to close healthcare gaps and strengthen systems throughout Africa.

At the heart of what we do are the principles of excellence, integrity, and dependability, which we proudly carry forward from AJR Pyramin International, seeking to make a significant difference in healthcare outcomes across the region.

To be Africa's most trusted provider of high-quality and affordable medical consumables, empowering healthcare systems and improving the quality of life across communities.

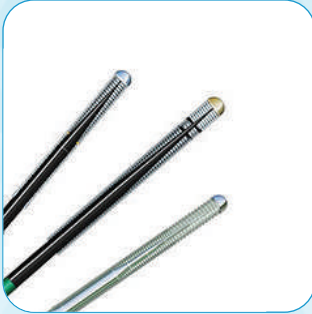

Our mission is to offer cost-effective, dependable, secure, and cutting-edge medical consumable solutions. We are committed to assuring accessibility, maintaining international quality standards, and developing long-term collaborations that improve healthcare delivery throughout Africa.
